

PRO WELLNESS

MARBOND SHOWER TRAYS AND BATHTUBS

LAUFEN

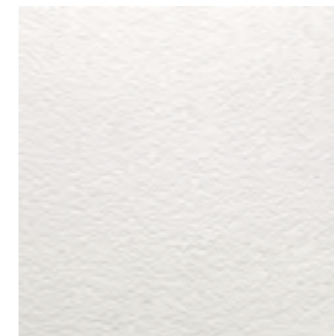

PRO SHOWER TRAYS

Filigree lines and a fine surface structure define the new LAUFEN Pro shower trays. The clean design by Peter Wirz complements the contemporary bathroom. Marbond, the unique material developed by LAUFEN, combines design freedom with a natural touch.

Pro Marbond shower trays are available in over 30 standard sizes. In addition, LAUFEN can cut the shower trays during production to individual sizes with seamless sealing at the cut surfaces. There are no boundaries to individual design in the bathroom.

SURFACE TEXTURE

The fine surface texture has a pleasant and warm natural touch.

COLOURS

Pro shower trays are available in:
matt white (.000)
light grey (.077)
anthracite (.078)

HIGH DRAIN PERFORMANCE

High drain performance of 37.2l/min. The stainless steel siphon cover matches the colour of the shower tray.

HYGIENIC AND SAFE

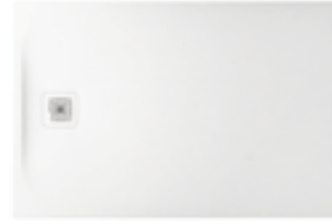

Marbond shower trays are hygienic, easy to clean and prevent slipping (DIN 51097, Class C – highest antislip-class).

INSTALLATION

LAUFEN Pro shower trays allow flexibility of installation.

Shower tray, square,
drain at side, Marbond

Shower tray, rectangular,
drain at short side, Marbond

Shower tray, rectangular,
drain at long side, Marbond

PRO BATHTUBS

The elegant design of Pro bathtubs by Peter Wirz is defined by thin walls, offering a spacious bathing experience. Precise lines shape the freestanding versions which are available in two sizes, adaptable to different bathroom situations. Small radii allow seamless transition of drop-in versions to tiles, perfectly complementing individual bathroom style.

The assortment of Pro Marbond bathtubs comprises two freestanding and three drop-in versions. With a freestanding bathtub of only 150 cm, LAUFEN offers a solution also for small bathrooms and allows an installation without cut-out for the siphon. Additionally, the rectangular and oval drop-in versions are available in lengths of 1700 and 1800 mm for maximum bathing comfort. A thin 15 mm bath rim gives the drop-in versions a noticeable lightness.

COMFORT IN DESIGN

Comfortable lying position thanks to integrated back support.

SEAMLESS TRANSITION TO TILES

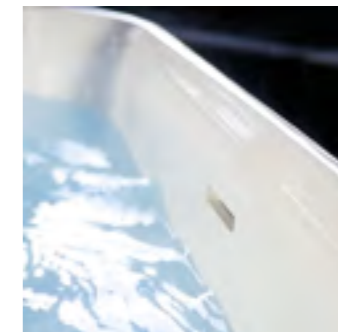

Small radii of 2 mm allow seamless transition of drop-in versions to tiles.

THIN WALLS CREATE SPACIOUS INTERIOR

Thin walls of the freestanding versions allow a spacious interior for maximum bathing comfort.

INTEGRATED OVERFLOW + CLICK-CLACK WASTE

Integrated overflow for freestanding bathtubs. Click-clack waste is included.

WHAT IS MARBOND?

Marbond is a unique material developed by LAUFEN, consisting of two layers, which are firmly bonded to one another. The basis is provided by a mineral cast whose surface is refined with high quality gel coat finish. Thanks to the material composition, LAUFEN Marbond products are durable and stable, chemical and thermal shock resistant according to DIN EN 14527 and can be easily repaired with LAUFEN repair kit 299965.

Pleasant and natural feel

Retains warmth

Scratch resistant

Material composition reduces water noise

Easy to clean – the antibacterial surface is repellant to dirt

UV resistant, no discolouration through sunlight
