HARMONY AS A CONCEPT

A promise, which Peter Wirz meets through the design and presentation of MODERNA. Creating a consonance that unites aesthetics with function to create this timeless harmonious design. This modern bathroom series pleases in all its aspects to create an experience that resembles a breathing space. A place, a feeling, a philosophy, the perfecting contouring of the Moderna range ensures a high feelgood factor, while its practical functions add to our everyday convenience. Sophisticated design elements are a constant pull throughout the entire collection to create a pleasant, well-ordered atmosphere in the bathroom.

Peter Wirz on Moderna

The characteristic features of this successful bathroom are honesty, reliability, independence, paired with high functional values – traditional Swiss design approaches that are just as relevant today.
